Welcome to Ndossi Village

Ndossi Village is much more than just a place to stay: it is a community village that embodies our vision of a unique sustainable development model, centered around Akanda National Park. This pilot project for Gabon offers a harmonious balance between tradition and modernity, where the essence of the village is preserved while offering the comforts of modernity to our visitors.

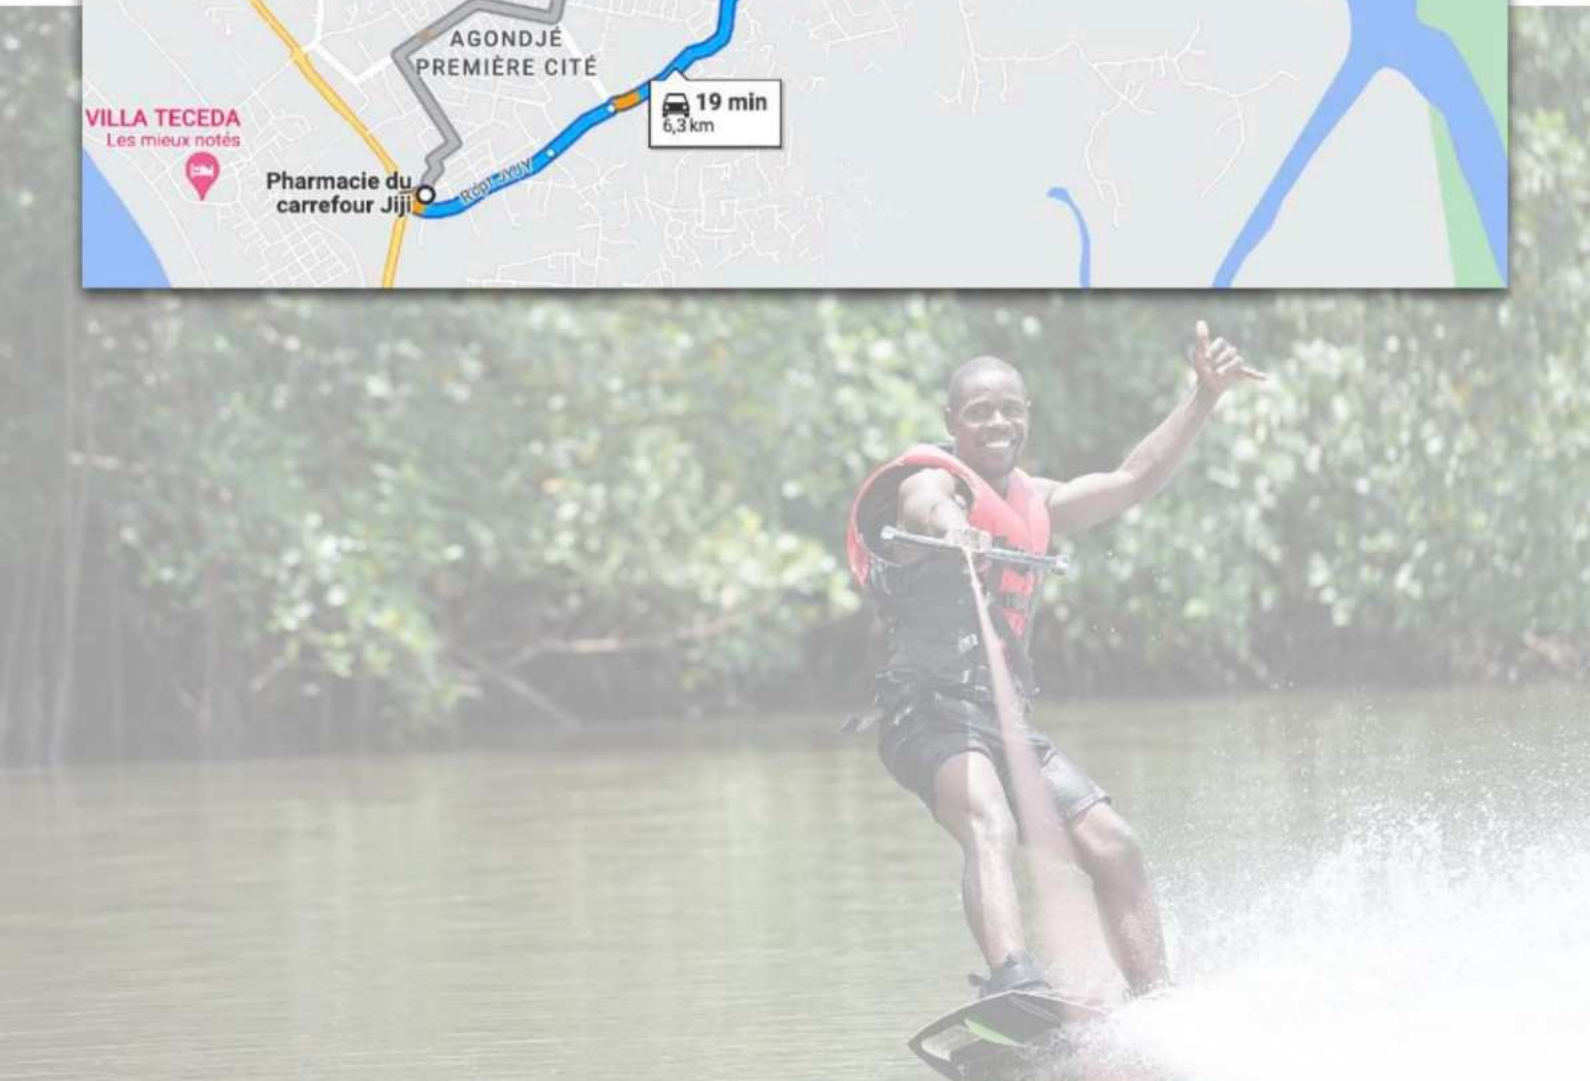

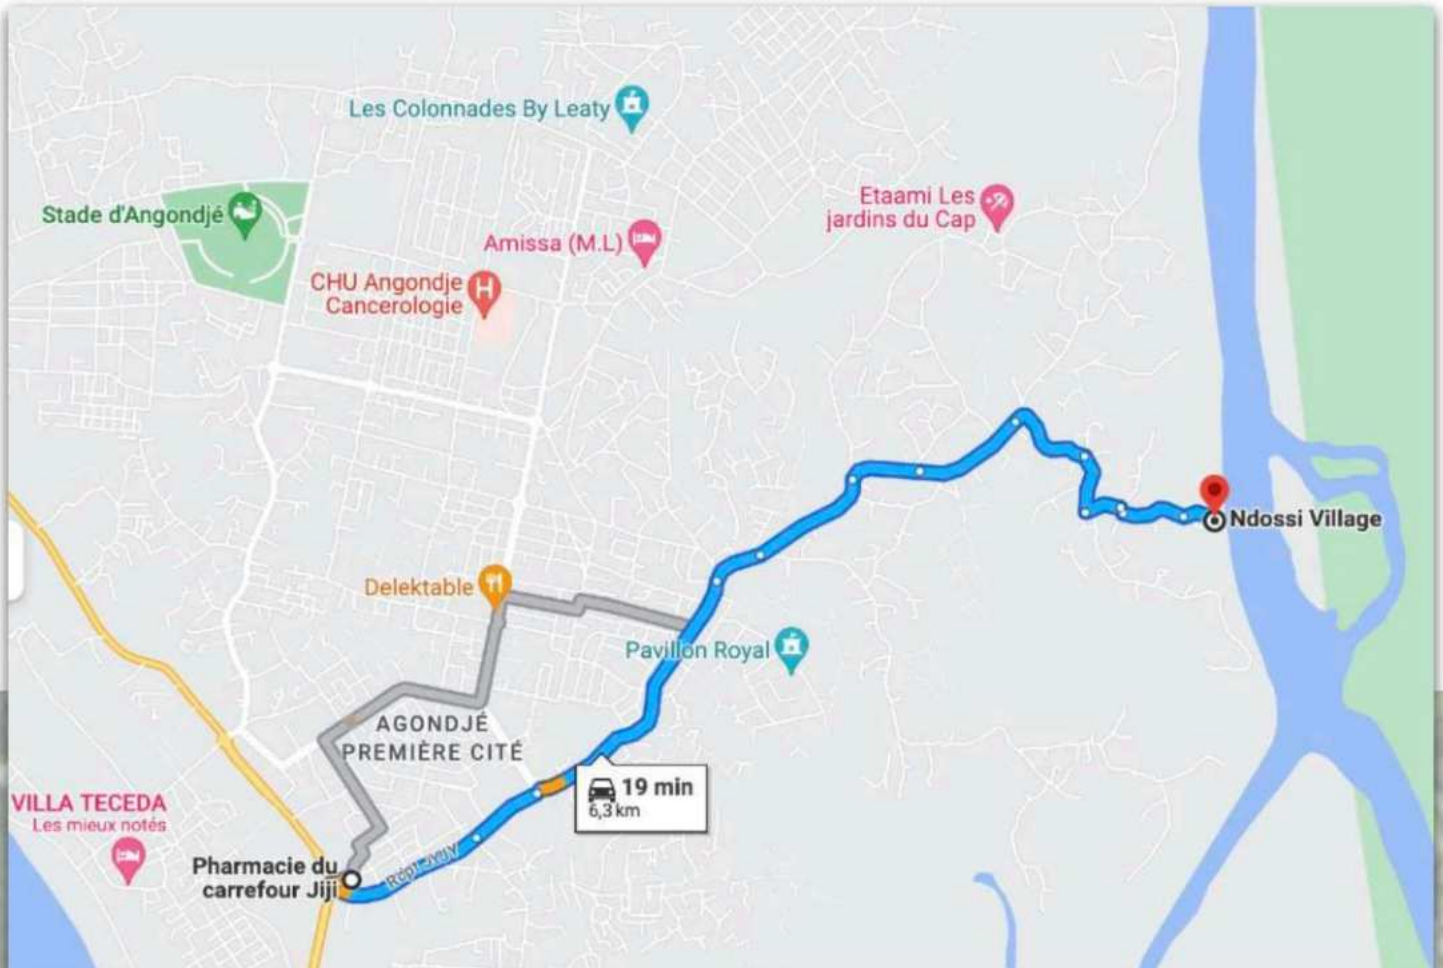

We firmly believe that the concept of a “village” must be a social and economic entity in its own right, capable of promoting a sustainable lifestyle that respects our heritage. At Ndossi, we showcase Gabonese know-how while integrating modern advances to create an authentic and comfortable experience.

The revenue generated by Ndossi Village is fully reinvested to fund the sustainable development of local communities, the preservation of traditional rites and Gabonese culture, and to support pharmacobotanical research initiatives. By choosing to stay at Ndossi, you become a key player in the protection and promotion of our country's cultural and natural riches.
